

**Noel's**  
Established Since 1971

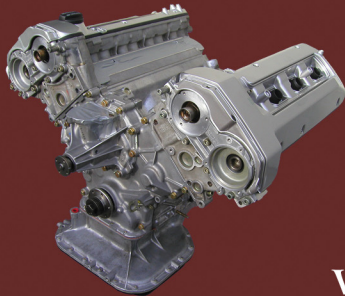

(Actual pictures of our engines)

V6s

**Noel's has Mercedes-Benz remanufactured longblocks in stock and ready to ship, not available from Mercedes-Benz.**

- Our longblocks are sold as complete kits with everything needed for installation including: Vavoline Oil, Oil filters, spark plugs or diesel injectors, gaskets and a Mercedes-Benz remanufactured water pump.  
(An average savings of \$600.00)

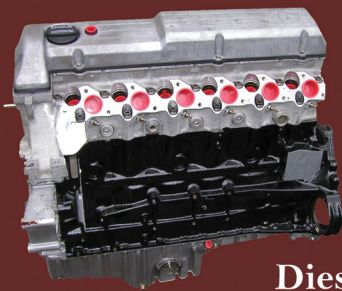

V8s

- Unlike other remanufacturers... We do not make you pay an advanced core charge. We also pay for shipping your engine to you and we pay for shipping your old engine back to us.  
(An average savings of \$500.00)

**- All of our longblocks come with a 4 year/50,000 mile nationwide warranty.**

- We use Carl Mahr factory approved measuring equipment that reads directly to .001mm.  
(That's .00004 inch.)

Diesels

- Our valve seating equipment is the very same as "The Committee for Fuel Research" uses for their Octane Rating Engine.  
(10 times more precise than all others)
